We offer 2 private dining venues with a range of 7 different options for any size group. Located in beautiful and historic St. Helena, we are perfectly positioned in the heart of Napa Valley.

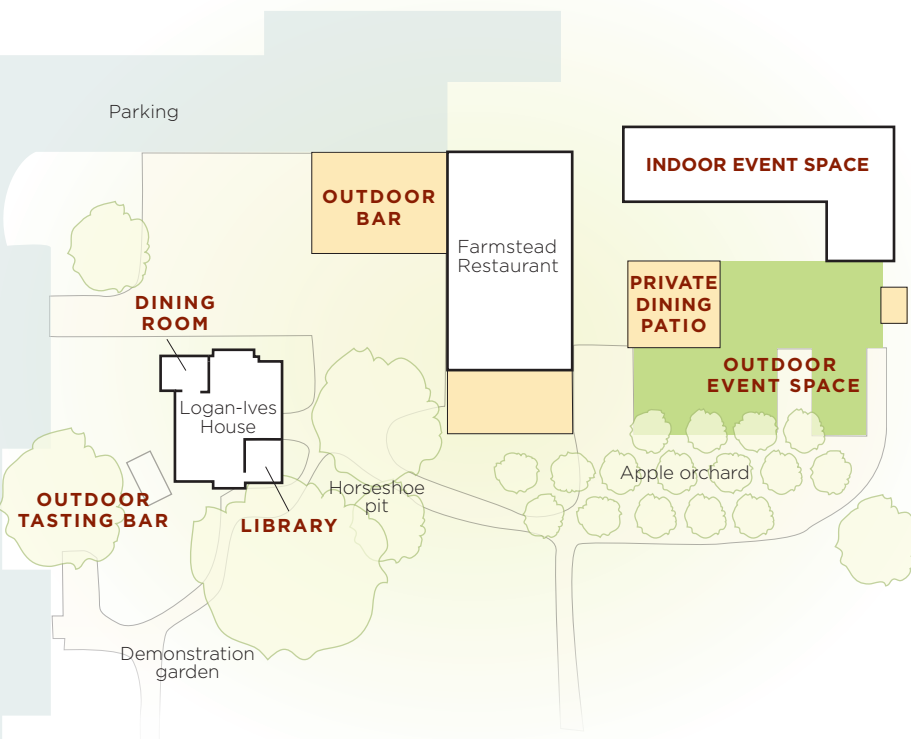

The historic **Logan-Ives House**, a meticulously restored Gothic revival farmhouse built in 1874, boasts 2 indoor dining rooms and 1 outdoor area.

Right next door on the property, **Farmstead** has 4 private dining areas, including one that can be tented for up to 250 people during the rainy season. Guided by our family's sustainable philosophy, discarded redwood framing from the property's historic residence are used throughout the property, tree stumps from the site were re-fashioned as side tables, and stones from the original foundation form the outdoor fireplace, which is a replica of a historic forge.
