**ALCOHOL:** 13.5%

**COOPERAGE:** 100% neutral French oak

**CASE PRODUCTION:** 97

**FOOD AFFINITIES:** Fresh pasta and LMR grass-fed beef ragu, or oven-roasted carrots with tarragon

### WINEMAKER'S COMMENTS:

"Long Meadow Ranch's 2013 Mayacamas Estate Sangiovese is a pure expression of the beauty of the variety. The grapes were estate grown on an appropriately exposed mountain block which received the right amount of light and ripening time before harvest. The nose is a complex blend of floral and fruity notes accompanied by subtler notes of cocoa powder, milk chocolate and pleasing minerality. The personality of the fruit begins with bright red fruits (plum, pomegranate and raspberry), but darkens on the palate to include concentrated black cherries and blackberries. For Sangiovese, the entry is surprisingly broad and weighty. Its ample fullness and texture are supported by beautiful structure from well-integrated acidity. This vibrant and varietally-true acidity gives the wine mouthwatering persistence through the silky and coating finish."

– Ashley Heisey

### GROWING SEASON:

The 2013 vintage was a superb vintage. The unusually long season, moderate temperatures without a major heat spike, and lack of rains made for one of the best vintages in recent memory. An early spring bud break allowed our vineyards to get a two-week head start on the vintage, and the lack of frost meant that yields were excellent while the longer growing season allowed for full ripeness. The wines from this vintage will be outstanding in quality.

### LONG MEADOW RANCH:

Owned by Ted, Laddie, and Christopher Hall, LMR employs an integrated, organic farming system, using simple, sustainable methods. Each part of the Ranch contributes to the health of the whole. Vineyards and wine making, olive orchards and olive oil making, cattle and horse breeding all work together in complementary fashion, as do the egg-laying poultry flock and the organic vegetable gardens. All crops are certified organic by California Certified Organic Farmers (CCOF) and are grown without the use of herbicides, pesticides, or chemical fertilizers.
