

TIMOTHY W. HALL FOUNDATION

The Timothy W. Hall Foundation is a non-profit, grant-making foundation supporting the arts and sciences. Its initiatives include fostering school garden and animal husbandry projects as places for children to learn about natural sciences, land stewardship and healthy food, and creating music curricula that excite and educate children through spontaneous improvisational performances.

Founded in memory of Timothy Hall in 1996, the Foundation has supported innovative programs in children's education grounded in hands-on experiences in the sciences and arts since 1997.

Concerts benefiting the Foundation have been produced in exceptional venues, including Carnegie Hall in New York City and St. Dominic's Church in San Francisco. The Foundation has been the recipient of significant unrestricted gifts in memory of Timothy and other members of the Hall family.

The Hall family extends its deepest gratitude for the generous donations to the Timothy W. Hall Foundation.
